L'achat de Ford par Fiat sous la bannière New Holland a abouti à la production de modèles communs. Plutôt que de multiplier les duplications entre les catalogues Fiat (New Holland) et Ford (New Holland), nous avons préféré ne placer ces modèles que dans un des deux catalogues. Voyez le tableau ci-dessous pour les correspondances et la position de ces modèles.

The purchase of Ford by Fiat under the New Holland banner resulted in the production of common models. Rather than duplicate the models in both the Fiat (New Holland) and Ford (New Holland) catalogues, we have chosen to place the models in just one of the two catalogues. See the table above for the related models and which catalogue to use.

A technical diagram showing two components. Component 1 is a small, dark, circular washer. Component 2 is a larger, black, O-shaped seal. Both are shown next to a silver-colored metal injector nozzle. The nozzle has a threaded section on the left and a tapered tip on the right. The washer (1) is positioned to be installed on the threaded section, and the seal (2) is positioned to be installed on the tapered tip.
